Portfolio: kumar-c-portfolio.netlify.app

CORE COMPETENCIES

UI/UX Design	
Frontend Optimization	
User Research	
Wireframing & Prototyping	
Information Architecture	
Interaction Design	
Design Systems	
Responsive Design	
Usability Testing	
Accessibility Compliance	
Cross-Functional Collaboration	
Stakeholder Management	

DESIGN ANALYTICS

User Personas	
User Journey Mapping	
Design Thinking	
Heuristic Evaluation	
Competitive Analysis	
User Flows	
Design Systems	
Atomic Design	
Accessibility (WCAG)	
Micro-interactions	
Responsive Design	
Information Architecture	

TECHNICAL SKILLS

Design Tools:	
Figma, Adobe Creative Suite, FigJam	
Frontend Development:	
React, HTML5, CSS3, JavaScript	
AI Tools:	
Higgsfield, Midjourney, Figma make, Cluade	
Visual Design:	
Typography, Color Theory, Auto Layout, Components & Variants, Design Tokens, Responsive Layouts	

EDUCATION

Bachelor of Engineering (Computer Science)
Rajarajeshwari College of Engineering, Bengaluru | 2019 – 2023

CERTIFICATIONS

KUMAR C

UI/UX DESIGNER | PRODUCT DESIGNER | UX ENGINEER

PROFILE SUMMARY

- UI/UX Designer and Frontend Engineer with nearly **3 years** of **experience designing** enterprise web applications and internal business platforms. Experienced in **user research, wireframing, prototyping, design systems, usability testing**, and frontend development using **React** and **JavaScript**. Passionate about solving business problems through **user-centered design** while collaborating closely with product managers and engineering teams.
- Demonstrates expertise in transforming high-level problem statements and business objectives into seamless user journeys through **user research, information architecture, wireframing, interactive prototyping**, and **high-fidelity interface design**.
- Skilled in driving **design-to-development**; developed and deployed responsive interfaces, working with engineering teams while ensuring **pixel-perfect execution**.
- Adept at balancing **user needs, technical feasibility**, and **business priorities** to create solutions that improve usability, strengthen adoption, and support product objectives.
- Stays ahead of evolving **UI/UX trends, design systems**, and **modern technologies** through learning, practical experimentation, and portfolio-driven innovation.

WORK EXPERIENCE

Acufore India | Dec'2023 – July'2026 | Software Engineer – UI/UX & Frontend

- Designed responsive dashboards for enterprise applications.
- Created wireframes, user flows, and high-fidelity interfaces in Figma.
- Collaborated with product managers and developers to translate business requirements into intuitive user experiences.
- Built reusable React components aligned with the company's design system.
- Improved navigation, accessibility, and usability across multiple applications.
- Integrated frontend applications with REST APIs and SQL databases.
- Worked closely with QA teams to ensure responsive and pixel-perfect implementation.
- Conducting usability testing sessions to gather user feedback and iteratively improve design solutions based on real-world usage and insights.
- Contributed to maintaining and expanding the company's design system to ensure consistency across products.

Highlights

- Redesigned HR dashboards to improve navigation and task completion.
- Built reusable UI components that accelerated frontend development.
- Improved application consistency by contributing to the shared design system.
- Collaborated with cross-functional teams to deliver responsive, user-centric applications.
- Contributed to product features that improved user satisfaction and usability.

INTERNSHIP

IBM, Bengaluru | Aug'2022 – Sep'2022 | Web Developer Intern

- Assisted in developing **responsive web applications** using **React** and **Node.js**.
- Supported and contributed to enhancing **user interface performance** and refining frontend functionality.
- Participated in **Agile development** activities while managing source code through **Git** version control.

PROJECTS UNDERTAKEN

Video Editor Portfolio : Designed and developed a responsive portfolio website to showcase video editing projects, motion graphics, and creative work. Focused on intuitive navigation, visual storytelling, smooth animations, and mobile-first responsive design to deliver an engaging user experience.

HR Management System : Conducted user research and workflow analysis to understand HR operations. Designed employee onboarding, attendance, payroll, leave management, and dashboard interfaces. Created reusable UI components, responsive layouts, and improved information architecture to simplify everyday HR tasks.

UI/UX Design Certification
Growth School (growthschool.io)
Google UX Design Professional (coursera)
Google AI Essentials
Figma Advanced

E-commerce & Web Applications : Designed responsive e-commerce interfaces including product listings, shopping cart, checkout, and user account flows. Created wireframes, interactive prototypes, and reusable design components while ensuring accessibility, responsive design, and seamless user journeys.

Featured UX Case Studies

- Motorcycle Riders Connect (*Offline Rider Communication Platform*)
- Stock Market Analytics Dashboard (*Trading & Investment Platform*)
- HR Management System (*Enterprise Dashboard*)

UX DESIGN PROCESS

- User Research & Requirement Analysis
- User Personas & Journey Mapping
- Information Architecture & User Flows
- Low-Fidelity Wireframing
- High-Fidelity UI Design
- Interactive Prototyping
- Usability Testing & Iteration
- Design System & Component Library
- Developer Handoff & QA Support
