- kumarworkmail2@gmail.com
- linkedin.com/in/kumar-c-innovater
- github.com/Kumar068

CORE COMPETENCIES

- UI/UX Design
- Frontend Optimization
- User Research
- Wireframing & Prototyping
- Information Architecture
- Interaction Design
- Design Systems
- Responsive Design
- Usability Testing
- Accessibility Compliance
- Cross-Functional Collaboration
- Stakeholder Management

TECHNICAL SKILLS

- Design Tools:
Figma, Adobe XD, FigJam
- Frontend Technologies:
React, HTML5, CSS3, JavaScript
- Visual Design:
Typography, Auto Layout, Tokens

EDUCATION

- Bachelor of Engineering
(Computer Science)
Rajarajeshwari College of Engineering,
Bengaluru | 2019 – 2023

CERTIFICATIONS

- UI/UX Design Certification
Growth School (growthschool.io)
Google UX Design Professional (coursera)

KUMAR C

UI/UX | PRODUCT DESIGN | FRONTEND SPECIALIST

PROFILE SUMMARY

- ~3 years of experience in delivering **user-centric products**, combining design thinking with frontend implementation to create intuitive and visually compelling experiences.
- Demonstrates expertise in transforming high-level problem statements and business objectives into seamless user journeys through **user research, information architecture, wireframing, interactive prototyping, and high-fidelity interface design.**
- Skilled in driving **design-to-development**; developed and deployed responsive interfaces, working with engineering teams while ensuring **pixel-perfect execution.**
- Hands-on experience in building **production-grade applications**, leveraging **Figma, React, HTML, CSS, and JavaScript** to deliver performance-oriented user experiences.
- Adept at balancing **user needs, technical feasibility, and business priorities** to create solutions that improve usability, strengthen adoption, and support product objectives.
- Stays ahead of evolving **UI/UX trends, design systems, and modern technologies** through learning, practical experimentation, and portfolio-driven innovation.

WORK EXPERIENCE

- Acufore, [Location](#) | Dec'2023 – Present | **Software Engineer (SDE-I)**
 - Crafting interactive **web interfaces** for enterprise applications used by internal teams and external clients.
 - Partnering with product owners and engineering teams to convert **business requirements** into intuitive, user-centric solutions.
 - Delivering responsive **frontend experiences** with emphasis on accessibility, usability, and consistent design standards.
 - Developing modular **UI components** using **React, JavaScript, HTML, and CSS** to support scalable application development.
 - Connecting frontend applications with **REST APIs** and **SQL databases** to enable seamless end-to-end functionality.
 - Conducting **usability testing sessions** to gather user feedback and iteratively improve design solutions based on real-world usage and insights.
 - Implementing design systems that promote consistency and efficiency across projects, facilitating collaboration between design and development teams.
 - Mentoring junior designers and interns, fostering a culture of learning.
- Highlights
 - Redesigned the user interface of a key application, leading in increase for users engagement and a reduction in support queries related to usability issues.
 - Developed a new design system that streamlined the design process, reducing project turnaround time and enhancing team productivity.
 - Pivotal in launching a new product feature that garnered positive feedback from users, contributing to an increase in overall customer satisfaction.

INTERNSHIP

- IBM, [Location](#) | Aug'2022 – Sep'2022 | **Web Developer Intern**
 - Assisted in developing **responsive web applications** using **React and Node.js.**
 - Supported and contributed to enhancing **user interface performance** and refining frontend functionality.
 - Participated in **Agile development** activities while managing source code through **Git** version control.

PROJECTS UNDERTAKEN

- Personal Portfolio:** Designed and developed a modern portfolio showcasing case studies, responsive layouts, animations, and UX-focused presentation.
- HR Management System:** Designed intuitive dashboards, employee workflows, and responsive user interfaces with a strong focus on usability.
- E-commerce & Web Applications:** Designed and developed multiple responsive web applications featuring user-centric layouts, reusable components, and modern UI patterns.
